

# Adventure awaits.

## Welcome to Camp Curiosity!

We are excited your camper will be joining us this summer! From delicious food creations and creative art projects to outdoor adventures, Camp Curiosity offers something for everyone. We are bringing back some of our favorite programs like Minecraft and Bakeology, but are also adding in new ones like Dance Intensive, Ukulele, and Build Your Own PC!

The College continues to offer high quality instruction for our Summer Camp programs. Many of our talented instructors are College faculty or HCPS teachers. Your camper's experience is sure to be both tons of fun and memorable.

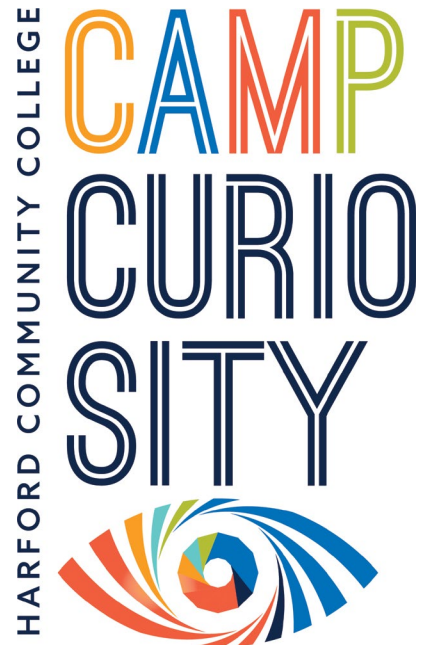

This catalog will assist you in understanding our Summer Camp offerings. Please also review our Parent/Guardian Handbook for camp-specific policies and procedures and do not hesitate to contact us with questions.

Sincerely,

**Camp Curiosity Team**

## CAMP CURIOSITY

**General Camp Information** ..... 3

**Schedules**

- Week 1: June 27-July 1 ..... 4
- Week 2: July 5-8 ..... 5
- Week 3: July 11-15 ..... 6
- Week 4: July 18-22 ..... 7
- Week 5: July 25-29 ..... 8
- Week 6: August 1-5 ..... 9
- Week 7: August 8-12 ..... 10
- Week 8: August 15-19 ..... 11

**Camp Descriptions** ..... 12

## SPECIALTY CAMPS & PROGRAMS

**Grant-funded Summer Programs at Harford Community College**

- Biotech Camp (Free) ..... 12
- GenCyber Smart Girls Camp (Free) ..... 13

**Preschool Camps at the Early Learning Center** ..... 14

**Additional Summer Youth Classes at Harford**

- Youth Sports Programs ..... 15
- Youth Academic Programs ..... 15

# CAMP INFORMATION

## ENROLLMENT

All campers are required to enroll online via our online registration portal, Camp Minder, in order to attend camp. Campers may enroll into a camp up to the Tuesday before the camp's scheduled start date, if space is available. Parents/guardians must complete all enrollment paperwork online before camp begins in order for the camper to attend. Campers are only eligible to register for camps within their correct age range.

## ARRIVAL PROCEDURES

Due to the large public open environments of our camp and our concern for camper safety, we require that parents/guardians accompany campers to their designated camp room and personally sign in their camper with a camp staff member for each scheduled day of camp. A camper's arrival location is dependent on the building in which their camp operates. Camp building and room locations will be shared via email the Thursday before camp begins and/or can be found in the camp catalog. Camper arrival time for full-day camps begins at 9 AM. Camper arrival time for half-day camps begins at 9 AM.

## COVID-19 RESPONSE

Camp Curiosity strives to provide campers and staff the safest camp experience possible. The College will adhere to all Maryland Department of Health camp policies and will seek advice and guidance from the CDC and Harford County Health Department. Please find the College's current COVID-19 response plan by clicking here <https://www.harford.edu/about-harford/coming-to-campus/coronavirus/>. This plan is subject to change. Please check the plan prior to your camper's arrival to campus to ensure you are adhering to the policies outlined. The COVID-19 response could include, but is not limited to, the following:

- face coverings
- physical distancing
- screening tests and questions
- contact tracing

## BEFORE & AFTER CARE

Before Care can be provided to all campers who are registered for a half-day or full-day camp. After Care can be provided to all campers who are registered for a full-day camp only. If you are signing up for Before and After Care, it must be in the same building as your camp. Before Care hours are 7:30-9 AM. After Care hours are 4-5:30 PM. Before Care costs an additional \$25 per week, per camper. After Care costs an additional \$25 per week, per camper. Campers must enroll in Before and After Care at the time of registration.

## DISMISSAL PROCEDURES

Due to the large public and open environments of our camp and our concern for camper safety, we require that parents/guardians sign out their camper with a camp staff member for each scheduled day of camp. All individuals signing a camper out must be listed on the camper's authorized to pick up list and must have a valid photo ID (i.e. driver's license). Campers will not be dismissed to an adult without an ID. A camper's dismissal location is dependent on the building their camp operates in. Camp building and room locations will be shared via email the Thursday before camp begins and/or are available in the camp catalog. Camper dismissal time for full-day camps is 4 PM. Camper dismissal for half-day camps is 12 PM.

## LUNCH/SNACK

Campers are required to bring their own lunch to camp daily for full-day camps. The College recommends that campers bring a healthy lunch packed in a lunch box with a freezer pack to keep lunches fresh. The College does not refrigerate camper lunches and will not re-heat camper lunches. The College schedules a mid-morning and mid-afternoon snack and break for campers daily. Campers are not permitted to purchase snacks or beverages from the vending machines. Campers must bring their own snacks from home. The College does not provide snacks.

## OTC AND/OR PRESCRIPTION MEDICATION

The College does not administer non-emergency medications to campers. If medication must be taken while the camper is on campus, the camper must receive authorization from a physician to self-administer the medication or a parent/guardian must come onto campus to administer the medication.

## EMERGENCY MEDICATION

The College will administer most emergency medication such as an EpiPen to campers. Parents/guardians are required to notify Camp Staff prior to the start of camp of their camper's need for emergency medication and confirm that the type of medication needed can be administered. A Medication Administration Form identifying the need for emergency medication must be completed by a physician and submitted to camp staff prior to the start of camp.

To view a complete list of all camp policies and procedures, please review our Parent/Guardian Handbook.

11-13	■ MINECRAFT

# CAMP DESCRIPTIONS

## AFTER CARE

Late pick up from camp is available until 5:30 PM. Campers must register and pay for After Care on a weekly basis at the time of registration. After Care will occur in the building the camp is operating in and is available for campers of all ages. No partial week care is available. Parents/guardians will receive an email the Thursday before camp begins with specific After Care locations.

## ADVANCED CODING

Interested in engineering or technology? Then this camp is for you! Learn the coding language Java and take a deep dive into the world of coding. Campers will work on programming projects throughout the week and develop problem-solving skills.

## ALL SPORTS

In this camp, campers will participate in various sports daily like kickball, floor hockey or soccer while developing individual skills and team work.

## ART ADVENTURE

Run and play outside, then relax in the AC and complete some crafts. This camp combines two passions, art and adventure. So if you enjoy both there is no need to choose!

## BAKEOLOGY

Learn to bake like a pro! Make muffins or cookies or pies, oh my! Take home delicious treats daily to share with family and friends.

## BASICS OF DRAWING

Learn to draw with charcoal, colored pencils and pastels. Explore the fundamentals of drawing such as shape, measurement, value and perspective.

## BEFORE CARE

Early drop off to camp is available beginning at 7:30 AM. Campers must register and pay for Before Care on a weekly basis at the time of registration. Before Care will occur in the building the camp is operating in and is available for campers of all ages. No partial week care is available. Parents/Guardians will receive an email the Thursday before camp begins with specific Before Care locations.

## BUILD YOUR OWN PC

Keep all your bits and bytes in line with this high-tech summer camp. Campers will leave this camp with the knowledge to build their own PCs at home.

## CODING THE BASICS

Interested in engineering or technology? Then this camp is for you! Learn the basics of the coding language Python. Campers will work on programming projects throughout the week and develop problem-solving skills.

## CONSTRUCTION LAB

Screw, hammer, or assemble your next project. Learn how to build unique structures using a variety of materials daily. Build race cars, bird houses or larger than life forts during this weeklong camp.

## CIRCUITS & PROGRAMMING

Learn how to code and wire in this week-long camp using Arduino. Campers will learn about current, voltage, and digital logic as well as the fundamentals of programming. Campers will get an introduction to sensors and actuators and learn how to understand both digital and analog signals.

# Biotech

## SUMMER CAMP

Free for qualifying high school students

AUGUST 1-5 | 9 AM-4 PM

Contact [jmadden@harford.edu](mailto:jmadden@harford.edu) for more details.

# CAMP DESCRIPTIONS (CONTINUED)

## DANCE INTENSIVE

Dance Intensive will be geared towards experienced dancers ages 11+. Dancers will start every morning with ballet, stretching and strengthening. After lunch, campers will focus on jazz, lyrical/contemporary, modern and choreography. Dancers are required to wear dance attire.

## DIGITAL ANIMATION

Learn about the various types of digital animation during this camp. From hand drawn to vector to 3D, this camp will explore them all and teach campers how to use specific software to design their own animation.

## DINING AROUND THE WORLD

Take a culinary adventure around the world! Campers will explore different cuisines from Latin America to Thailand. Be prepared to try new and exciting dishes and explore a world of different ingredients.

## FORENSIC SCIENCE

Campers will be introduced to the world of forensic science and will take a behind-the-scenes look at criminal investigations and try to figure out "who done it."

## KIDS IN COLLEGE

Want a traditional full-day summer camp experience? Make memories with us this summer playing sports, crafting, completing science experiments, cooking in the kitchen and so much more! A new and exciting camp theme is offered weekly to keep things exciting.

## KIDS IN THE KITCHEN

Future chefs wanted! Learn to make appetizers, main dishes and desserts in a professional teaching kitchen! Proper measuring and mixing techniques, basics of baking and much more will be covered.

## LEGO ENGINEERING

Use your engineering skills to plan and create projects using software like LEGO WeDo. Campers will learn the basics of programming and coding, engineer simple machines and build 2D and 3D structures!

## LIGHTS, CURTAIN, ACTION

Learn the craft of theater including staging, characterization, dramatic expression, costuming and scenery while developing your own play. The week concludes with a performance for family and friends!

## MIDDLE SCHOOL BAND

Campers will toot, honk, and doot in this weeklong band camp. Campers will collaborate to put on a concert at the end of the week for family and friends. Campers must bring their own instrument (exceptions: piano and drums).

## MOBILE MOVIE MAKERS

Use technology such as a tablet, smart phone or computer to direct, shoot and edit your own film! Learn how to use various apps and software to add music, images and text to a short film. Campers must have access to their own tablet, smart phone or computer with video recording capabilities. Parents/guardians will be contacted before camp to assist with technology needs and share free apps and download software.

# CAMP DESCRIPTIONS (CONTINUED)

## MINECRAFT

Design your own world in Minecraft! Embark on new challenges daily and learn the basics such as creating unique objects, making maps and building 3D objects. Campers must come to camp with a pre-existing Minecraft account. Parents/guardians will be contacted before camp to assist with setting up accounts as needed.

## PAINTING MEDIUMS

Learn to paint in water soluble oil, acrylics, gouache and watercolor. Explore the fundamentals of coloring mixing, value scales and techniques for applying paint.

## PHOTOGRAPHY

Learn the fundamentals of composition, color, design and lighting, how to use the different modes on your DSLR camera and create post production in Adobe Photoshop Bridge, Adobe Photoshop and Lightroom. Campers must bring their own DSLR camera and USB to camp daily.

## ROBLOX

Learn how to design your own world in ROBLOX using Lua (the programming language in ROBLOX). Create scripts, string variables, work with if/then functions and so much more! Campers must come to camp with a pre-existing ROBLOX account. Parents/guardians will be contacted before camp to assist with setting up accounts as needed.

## SUMMER STRINGS

Engage in activities to strengthen your musical skills through small group sessions and rehearsals. The week concludes with a concert performance for family and friends. Campers are required to bring their own instrument to camp daily.

## TAKE A HIKE

Take a walk outside on one of the College's 5 miles of hiking trails! Fun hiking games and nature crafts will be taught to make a fun-filled week of outside fun.

## UKULELE

Calling ukulele players of all levels! Bring your own ukulele or play one of ours and learn how to jam to your favorite tunes! No previous ukulele experience required.
