HARFORD COMMUNITY COLLEGE
CERTIFICATION OF ATTENTION DEFICIT HYPERACTIVITY DISORDER

The student named below has applied for services from Harford Community College's Disability and Student Intervention Services. In order to be able to determine eligibility and what, if any accommodations are warranted, documentation or additional documentation is needed.

Under the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973, individuals with disabilities are protected from discrimination and may be entitled to reasonable accommodations. To establish that an individual is covered under the law, documentation must indicate that a specific disability exists and that the identified disability limits one or more major life activities (e.g. learning). *A diagnosis of a disorder in and of itself does not automatically qualify an individual for accommodations.* The documentation must also support the request for accommodations and explain how the disability impacts learning.

Please complete the form and return by mail or fax to:

Harford Community College
Disability and Student Intervention Services

ACCOMMODATIONS

Please indicate your recommendations and justifications regarding classroom and/or testing accommodations in the college environment. Justifications should specify how the accommodations and strategies directly relate to the symptoms and/or functional limitations (e.g., extended time because of focusing difficulties).

Please note: At the college level, the purpose of an accommodation is to ensure equal access rather than to ensure a student's success. In reviewing the accommodations requested by the student or recommended by an evaluator, the DSIS Office may find that the accommodation is not appropriate given the requirements of a course or program. DSIS may propose an alternative accommodation that would be appropriate for the student, but which neither the student nor evaluator has requested.

Recommended Accommodations	Justification
