- Camp may switch to on-line delivery if necessary.

See reverse side to apply.

We are still looking for applicants!

APPLY TODAY!

Through a grant awarded by the National Security Agency and National Science Foundation, Harford Community College is offering **GenCyber Smart Girls Camp for rising 7th, 8th and 9th grade girls interested in cyber**. This no-cost opportunity is targeted toward underrepresented populations in cybersecurity as well as those who may not otherwise be able to afford camp. HCC's GenCyber Smart Girls Camp hopes to increase an interest in cybersecurity, teach safe online behavior, and apply GenCyber Cybersecurity First Principles. Campers will investigate, program and hack familiar Internet of Things (IOT) devices such as fitness trackers, Roomba vacuum cleaners, and Amazon Echoes through a variety of hands-on projects. Campers will learn concepts related to safe digital behavior, cybersecurity ethics, data security, and privacy by experimenting with common devices that integrate Cybersecurity First Principles.
